Art Unit: 3722

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by Japanese 5-301106.

Note spaced first/second contact portions 23 and an annular recess 22 intermediate the two.

3. Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by Japanese 2001-300828. See figure 2. Note first contact portion 15, and unnumbered annular recess axially rearward of portion 15, and a second contact portion axially rearward of the annular recess.

4. Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by German 4004150. Shank 1 has support surfaces 7, 9, with an annular recess near the end of the lead line for numeral 6.

5. Claim 23 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 23 uses inconsistent language. Note that first and second portions are set forth, and then the last two lines of the claim describe them as front and rear contact portions.

6. Regarding the amendment filed on 7-13-06, it is noted that the amendment does not use the proper format to state that claims 1-3, 7-12, and 16-21 have been canceled. Note that the proper format MUST be used in response to this Office action, as the next response will likely result in allowance of the application.

7. The drawings were received on 7-13-06. These drawings are approved.

8. Claims 4-6, 13-15, and 22 are allowed.

Art Unit: 3722

9. Applicant's arguments filed 7-13-06 have been fully considered but they are not persuasive. Claim 23 is newly added, and as seen from above, prior art meets the limitations of claim 23. There are no other remaining topics.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

11. Any inquiry concerning the content of this communication from the examiner should be directed to Daniel Howell, whose telephone number is 571-272-4478.
